

WEDNESDAY, FEBRUARY 16, 2022

7:30 a.m. - 3:00 p.m.			
Attendee Registration			
7:30 a.m. - 9:00 a.m.			Diamond Center
Economic Forecast Breakfast*			
9:00 a.m. - 10:00 a.m.	Innovations in Coatings, from Roof to Slab **Sponsored by Sherwin Williams**	The Sherwin-Williams Team will highlight some favorite tools and resources available currently available. Followed by a shift to highlight new technology and products that can solve problems. Lastly, the Team will review some paint basics. This session is intended for a wide audience, from the person new to a role in the paint or construction world, to an experienced painter.	Garnet
	Controlling Work Comp Costs	This workshop will cover the top five things you can do to get control of your workers' compensation insurance costs. Learn about incentives, employee classification, and ways to improve your Experience Modification Rate (EMR).	Jade
	MISS DIG 811 Updates for Excavators	In this session, MISS DIG 811 will provide an overview on the OneCallAccess system, the new ticket entry platform for dig and design tickets. The discussion will include features of the program, ticket types, scope of work guidelines, ticket actions, and Positive Response. In addition, the Notification Center is offering a number of initiatives specifically for excavators to assist in their damage prevention efforts. Programs such as Gold Shovel Standard, Maintain the Marls, Joint Project Locating, and more will be discussed.	Coral
	Project Delivery Systems	General Contractor, Construction-Manager At-Risk, Construction Manager as Advisor, Design-Build, Delegated Design, what do these all mean? With so many different ways to deliver a project, learn the distinctions, advantages, and disadvantages of the different project delivery systems in the market today.	Pearl
9:00 a.m.			
Exhibit Hall Opens			
10:15 a.m. - 11:15 a.m.	A Contractor's Guide to COVID 19 Claims	This session will provide a brief update on how the courts have addressed COVID issues in construction. There will be a discussion about the development and management of COVID-related claims for both schedule extensions and price increases. Damages mitigation tactics will also be explored with a view towards educating participants on how to effectively administer their contracts given trade and material shortages. Contract negotiation tactics will also be discussed with an eye towards developing price escalation clauses that are fair to all parties.	Jade
	MIOSHA Update	Presented by Lawrence Hidalgo, the the Division Director of the Construction Safety and Health Division of MIOSHA, this workshop will review the MIOSHA strategic plan, significant cases, top violations, and what's new with the agency.	Pearl
	Legislative Update	This session will provide attendees with an update on state legislative issues and proposed code changes impacting the residential construction industry. Legislative topics to be covered include an overview of Housing Michigan Coalition initiatives, American Rescue Plan funding proposals, and Election 2022. The program will also include a report on the Michigan Residential Code update and potential energy code changes. The session will count for .5 hour of credit towards builders' continuing competency. WEDNESDAY, FEBRUARY 16, 2022

11:30 a.m. - 2:00 p.m.	CAM 136th Annual Meeting*		Diamond Center
1:00 p.m. - 2:00 p.m.	When MIOSHA Visits	Attendees from both the construction and general industry sector will gain an insight of the process and procedures a MIOSHA compliance officer follows while conducting a workplace inspection and how to respond to MIOSHA citations. Topics covered include inspection types, employer/employee rights and responsibilities, and penalty reduction factors.	Garnet
	MISS DIG 811 Updates for Excavators	In this session, MISS DIG 811 will provide an overview on the OneCallAccess system, the new ticket entry platform for dig and design tickets. The discussion will include features of the program, ticket types, scope of work guidelines, ticket actions, and Positive Response. In addition, the Notification Center is offering a number of initiatives specifically for excavators to assist in their damage prevention efforts. Programs such as Gold Shovel Standard, Maintain the Marls, Joint Project Locating, and more will be discussed.	Coral
	Constructing Your Insurance Policy: Maximizing Coverage for Minimal Cost **Sponsored by Michigan Insurance and Financial Services**	Additional insured (AI) endorsements are a common occurrence in construction and, despite how frequently they are used, it can seem a bit complicated. Join this session to learn about negotiating your contractual requirements to maximize insurance coverage when asked to add organizations as additional insureds; avoiding potential coverage gaps and breach of contract claims. We will also share tips for avoiding common and costly errors in your work comp reporting requirements. Finally, attendees will receive guidance on how to streamline performance and payment bond underwriting.	Pearl
	Prevailing Wage Compliance	This workshop will cover all aspects of the Federal Davis Bacon Act (prevailing wage), including worker classification, fringe benefit calculations, overtime, and certified payroll requirements. In addition, the class will cover the newly instituted prevailing wage requirements on the State of Michigan owned projects bid out through the Department of Technology, Management, and Budget.	Jade
2:15 p.m. - 3:15 p.m.	Managing Your HR in the Construction Industry ***Sponsored by HRPro***	A look into how HR is managed differently in the construction industry's unique environment. Finding and keeping qualified workers, the impact of wage compression, the rising cost of insurance and basic government compliance related to ADA, FMLA, EEO and the rest of the HR alphabet soup are some of the hot topics. In this 60-minute seminar you will learn how to manage compliance, reduce costs, increase productivity and make your company one where employees want to stay	Pearl
	Construction Technology Panel Discussion	Representatives from various companies share their experiences and discuss construction technology and keys to a successful implementation.	Garnet
4:00 p.m.	Exhibit Hall Closes
